

# MISWA REFINISHING & AUTOMOTIVE RANGE

## S20325 & S20330 POLYGARD FILLER PASTE LIGHTWEIGHT

This is an easy to sand, high quality two-component filler paste. It has excellent spreadability, sag resistance, medium and deep filling properties. It adheres to clean, properly prepared metals, fibreglass and wood with excellent feather-edging properties.

### PRODUCT FEATURES

- Adheres to galvanised steel and aluminium
- Very easy to sand and smooth spreading
- Ideal for medium and deep filling
- Excellent feather edging

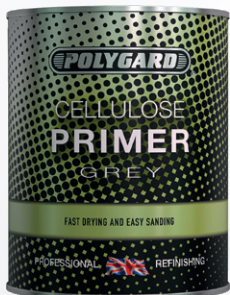

S20330 3ltr

**£16.50**

S20325 4.5ltr

**£23.50**

## S20501 POLYGARD CELLULOSE GREY PRIMER

This is a 1K single pack high build primer designed to fill surface scratches, stone chip damage, polyester body filler, glass fibre moulds and most factory or refinish paint systems (except air dried synthetics). It is a fast drying, easy sanding primer that can be used as a high build primer or primer surfacer. It can be air or low bake dried, and be used with cellulose 2K acrylic and synthetic top coats.

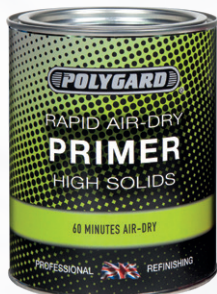

### PRODUCT FEATURES

- Fast drying and easy to sand
- Air dry or low bake

S20501

**£31.00**

## S30100 POLYGARD RAPID AIR-DRY PRIMER HIGH SOLIDS

This is an extremely quick drying, VOC compliant grey primer that gives an outstanding finish and is ready to sand in 1 hour. It is easy to sand even several days after application. This product is designed to reduce energy cost and save time. The superb filling properties means it can be used as a spot primer filler or a primer surfacer on large areas.

### PRODUCT FEATURES

- Extremely quick air-drying - 1 hour @ 20°C when used with Polygard Rapid Air-Dry Hardener Fast
- Reduces energy costs and saves time

S30100

**£11.00**

# REFINISHING RANGE

## S30120 POLYGARD RAPID AIR-DRY CLEARCOAT ANTI-SCRATCH

This is a very fast drying, VOC Compliant clearcoat which is ready to polish in under 1 hour. The short dust-free time helps reduce airborne contamination when used with Polygard Rapid Air-Dry Hardener. With no baking required it will reduce energy costs and with no flash-off between coats, or thinners needed, it is quick to mix and apply.

### PRODUCT FEATURES

- Extremely quick air-drying - 40mins @ 20°C when used with Polygard Rapid Air-Dry Hardener Fast
- No baking required reduces energy cost

S30120

**£12.00**

## S30140 POLYGARD HIGH BUILD PRIMER HARDENER

Polygard Rapid Air-Dry Hardener Fast is a high quality isocyanate hardener designed to cross link perfectly with Polygard Rapid Air-Dry Primer High Solids and Polygard Rapid Air-Dry Clearcoat Anti-Scratch, giving optimum release of solvents and rapid drying.

### PRODUCT FEATURES

- Extremely quick air-drying
- Links perfectly with Polygard Rapid Air-Dry Primer High Solids and Polygard Rapid Air-Dry Clearcoat Anti-Scratch

S30140

**£7.50**

## S30180 & S30181 POLYGARD PANEL DEGREASERS

These are highly effective anti-static and anti-silicone panel wipes with an aggressive degreasing action, designed to remove surface contaminants including wax, grease and silicones. Ideal for use on bare metal and existing paint surfaces prior to the application of any coatings. Ideal for panels and slow degreaser for larger areas.

### PRODUCT FEATURES

- Effectively removes surface contaminants
- Compatible with most paint systems
- Two speeds available – fast and slow

S30180/S30181

**£10.50**

## S30200 POLYGARD SOLVENT DEGREASER

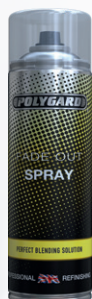

This is a highly effective anti-static and anti-silicone panel wipe with an aggressive degreasing action, designed to remove contaminants including wax, grease and silicones. It is ideal for use on bare metal and existing painted surfaces, prior to the application of any coatings.

### PRODUCT FEATURES

- Effective panel and parts cleaner
- Fast removal of surface contamination
- For use on metal and most plastics
- Spray direct into recesses

S30200  
**£5.65**

## S30210 POLYGARD FADE OUT SPRAY

This is a quick, and effective blending solvent designed to fade out the edges of solvent based clearcoats and solid colours. This product is the perfect combination of speed and invisible repair, in the convenience of an aerosol for faster application.

### PRODUCT FEATURES

- Perfect dry edge blending solution
- Fast drying
- Saves time flattening and polishing
- Ideal for SMART repairs

S30210  
**£5.65**

## S30230 POLYGARD UNIVERSAL ADHESION PROMOTER

This improves the adhesion of paints, adhesives and sealants to all automotive surfaces such as plastics, aluminium, fibreglass, galvanised steel and painted surfaces. Application of 2 light coats replaces the need to abrade the substrate in hard to access areas.

### PRODUCT FEATURES

- Improves adhesion for coatings, adhesives and sealants
- Fast drying
- Perfect for hard to abrade areas
- Perfect for SMART repairs

S30230  
**£6.50**

# REFINISHING RANGE

## S30240 POLYGARD HIGH BUILD PRIMER GREY

This has ultra-high build properties, is very fast drying and easy to sand, ensuring a very smooth surface prior to application of the topcoat. Ideal for spot repairs on paint, polyester body fillers, GRP, steel, galvanised steel and several types of plastics.

### PRODUCT FEATURES

- Vari-fan nozzle allows wide to narrow spray fan adjustment
- Ultra-high build, non-sag formula
- Fast drying and easy sanding

S30240  
**£6.50**

## S30241 POLYGARD ETCH PRIMER GREY

This is the perfect rub through primer prior to painting it can also be used on larger areas and whole panels where increased adhesion is required to difficult substrates, such as galvanised steel and aluminium.

### PRODUCT FEATURES

- Perfect for rub through areas in primer prior to application of colour
- Adheres to steel, galvanised steel, aluminium and certain plastics
- Fast drying

S30241  
**£6.50**

## S30242 POLYGARD PLASTIC PRIMER GREY

Fill minor imperfections and sanding marks in most plastic surfaces. This high adhesion, fast drying and easy sanding primer can be finished with a texture coat, water or solvent-based paint systems.

### PRODUCT FEATURES

- Highly flexible formulation
- Ideal for filling sanding marks
- Easy to sand

S30242  
**£6.50**

## S30243 POLYGARD WELD-THRU PRIMER ZINC

This is an anti-splatter, super conductive primer, with excellent rust protection properties when applied to metal surfaces prior to SPOT, MIG or TIG welding.

### PRODUCT FEATURES

- Anti-splatter formula
- Super conductive
- Fast drying

S30243  
**£6.50**

## S30250 POLYGARD SANDING GUIDECOAT BLACK

This is a highly effective, dry powder guide coat that identifies surface imperfections such as pinholes and low spots during the sanding of fillers and primers.

### PRODUCT FEATURES

- Identifies pinholes and low spots in filler and primer
- Dries in seconds, ready to sand
- Will not clog abrasives like matt black
- Can be wet or dry sanded
- Convenience of an aerosol for faster application

S30250  
**£5.65**

## S30260 POLYGARD HIGH GLOSS CLEARCOAT UV RESISTANT

This is an excellent high gloss, fast drying and durable clear. The advanced formula contains UV absorbers ensuring excellent durability, making it ideal for spot repairs, wing mirror covers, door handles and mouldings.

### PRODUCT FEATURES

- Non-yellowing technology
- Fast drying and exceptional gloss
- Excellent flow and non-sag properties
- Perfect for SMART repairs

S30260  
**£6.50**

# REFINISHING RANGE

## S30270 POLYGARD STONE CHIP PROTECTOR BLACK

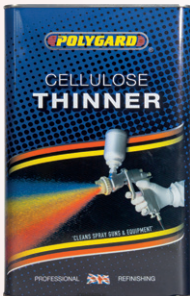

This is a textured, durable, rubberised coating that will protect against stone chips damage and corrosion on lower panels including sills and valences. This fast drying protective coating can be overcoated and will also help with sound deadening.

### PRODUCT FEATURES

- Textured, durable protection
- Protects against stone chips and corrosion
- Fast drying, can be overpainted
- Ideal for sound deadening

S30270  
**£6.50**

## S42305 POLYGARD CELLULOSE THINNER

This is a blend of aliphatic and aromatic hydrocarbons, esters, ketones and alcohols. It has been blended to give optimum performance when thinning solvent based paint prior to spraying and cleaning equipment, brushes and surfaces.

### PRODUCT FEATURES

- Ideal for thinning solvent based paints
- Perfect for gun cleaning

S42305  
**£8.65**
